Discovering what is happening and keeping up with the latest gossip and buzz on the Internet's eBusiness is a must in today's continuing fast paced survival economy! The sources that I am listing will be sites that give the latest "gossip and buzz" about what people are saying about Internet companies and eBusiness as well as what is happening within companies that is reported anonymously by "insiders". These are "must" sites to keep you current with the latest gossip and buzz:

Company Happenings:

Downside – The Investor's Reality Check

Yahoo! Buzz Index

<http://buzz.yahoo.com/>

There are of course many many other sites that have sections or separate files for the above information but the above URLs will help you to discover the latest Internet gossip and buzz. This information is only one piece of the large puzzle that we call eBusiness. Each is required to give you the latest information to make competent and solid decisions to foster a positive and ongoing eBusiness initiative on the Internet. It is also nice to have this information to be in the know ;-)
